

Patryk Bielanin

Front-end developer

My Self

2 years experience as full-stack developer in the SEO industry. My job is to maintain company's website and web application which connects clients, publishers, link builders and copywriters. In my job i value quality of my code, keeping to my deadlines and good communications with people in my team. In my free time i focus on learning new front-end technologies and soft skills development.

Experience

OFF-SITE sp. z o. o. - Katowice

Full-stack developer

06.2021 – Present

INTERNSHIP

03.2020 – 06.2020

- Maintaining company's website (Nuxt.js)- fixing bugs, creating new features, taking care of SEO aspects, managing pc and mobile optimization
- Maintaining company's web application (Vue.js, PHP) - fixing bugs and creating new features
- Migrated company's web application from old server to new dockerized version
- Designed and implemented external API to connect company's website with their web application
- Designed discord bot to catch live statistics from web application through API and send them as notifications to company employees on discord app

Projects

VueAsk - vue plugin

- A simple, light and fully customizable confirmation modal component for Vue3 and Nuxt3.

Better discord theme website

- Website created for my better discord theme. Includes configuration tool for users to modify theme and FAQ section with answers to mostly asked question.
